THE CAPITOL SQUARE.

PROPOSITION TO HAVE A SUPERVISOR OF THE STATE PROPERTY.

Mr. Barbour to be notified by a Committee of His Election as Senator—The Eastern Lunatic Asylum.

The legislative committee appointed to inquire into and report upon the management of the Land Office held another meeting yesterday and paid a visit to Governor Lee to get his views, after which they adjourned to meet on Monday next.

In the House yesterday Mr. Curtis introduced a bill, which, under the title, was referred to a committee, proposing to separate the duties of the Register of the Land Office from those of the Superintendent of Public Lands. Now on order discharges the duties of both positions.

THE CAPITOL SQUARE.
If Mr. Curtis's bill becomes a law the Register will attend to the duties of the Land Office, while the superintendent of public lands will have the present corps of policemen under him, and will be charged with the distinct responsibility of keeping the public grounds and buildings in order and protecting the same.

ADVANTAGES OF THE NEW PLAN.
The recommendations in his message having failed Governor Lee prefers some arrangement such as is proposed by Mr. Curtis. He does not care whether the General Assembly or the Governor is charged with the appointment of the superintendent.

It seems from the evidence exhibited to the legislative committee that in the Land Office proper there is ample work to keep the Register employed all day. There is, the Governor has no doubt, ample work to keep a sergeant of police or supervisor of public property at work all day, too, and he hopes for great benefit from the separation of the offices, especially in the case of the superintendent, who will have no other duties to perform, and if Mr. Curtis's bill is passed, the expenses under the present compact one can be drawn up that will.

Governor Lee is of the opinion that an improvement can and should be made in the attention paid to the Capitol and to the Capitol Square in respect both to tidiness and police. He thinks that the Capitol Square could be made with the city authorities by which the Square could be better lighted than at present. His view is that the grounds in every part should be as well lighted as Main or Broad streets. He also favors, Mr. Curtis's bill providing for the abolition of convict-labor on the Square. To this both political parties are committed, and it will be strange indeed if the two houses adjourn without sending the re-elected wretches back to work on the Capitol grounds and putting honest men in their places.

MR. BARBOUR TO BE NOTIFIED.
The special legislative committee consisting of Delegates Ryan (chairman), Hay, Echols, Gordon, and W. A. Anderson from the House, and Senators Keener, McDonald, and Hunt from the Senate, met at the Capitol last night. This morning they will meet Mr. Barbour and convey to him the official information that he has been elected a senator in the United States before the term beginning March 4, 1889.

Mr. Barbour will no doubt give them "an old Virginia welcome."

THE COUPON-TENDER.
The House has passed the bill amending the coupon-cruiser so as to permit those who have tendered coupons to receive the same, but some of the senators think it a dangerous thing to tamper with the coupon, which has been passed upon by the United States Supreme Court, and which he will litigate again. They go in for passing the measure as a separate and independent bill.

CONKLE'S FEE.
It is understood that Mr. Conkling is willing to allow Governor Lee or Attorney-General Ayers to say how much of fee he should have for representing the United States before the United States Supreme Court in the coupon-cruiser case.

WASHINGTON MONTMONT.
At the request of Mr. Lyon G. Tyler Mr. Netherwood yesterday examined the masonry of the Washington monument and reports it in need of repairs.

LUNATIC ASYLUMS.
At the meeting of the Senate Committee on Finance Thursday afternoon Dr. J. D. Monroe, Superintendent of the Eastern Lunatic Asylum, at Williamsburg, and Captain E. D. Starke, one of the directors, appeared in front of the committee, who has introduced appropriating \$35,000 to replace the buildings destroyed by fire about three years and a half ago. No action was taken on the bill, and the probability is that it will not be further considered until next Monday meeting.

A joint session of the Senate Committee on Public Institutions and the House Committee on Asylums and Prisons will be held next Wednesday afternoon at 4 o'clock to consider the reports of the superintendents of the lunatic asylums appointed at the special session to consider the propriety of making certain changes in the laws concerning lunatic asylums.

FLOUR AND FISH.
The Senate Committee on General Laws met last Wednesday morning at 10 o'clock as the time for considering the bill (heretofore fully explained in the Dispatch) abolishing the compulsory inspection of flour and fish. This bill was prepared by counsel for the flour and fish dealers, and is being presented, and is pending before the above-named committee. Much interest is being manifested over this measure, and the fight for its passage will no doubt be hotly contested.

THE NEWS OF MANCHESTER.

EPISCOPAL MEETING.

ORGANIZATION OF THE RICHMOND CITY MISSIONARY SOCIETY.

Election of Officers—Address by Clergy and Laity—Line of Work to be Done.

A large congregation was present last night in St. Paul's church, in response to notices which had been read in the Episcopal churches on Sunday, stating that a missionary society would be organized.

After hymns, prayers, and reading of the psalter, Bishop Whittle took the chair, and stated the general object of the meeting. He said there had been too much congregationalism among Episcopalians. He spoke of the great need of more enterprise in supporting weak parishes in the country. His remarks were very earnest, and what he said was well received by the congregation.

MINOR MENTION.
An interesting meeting of the Ladies' Aid Society of the Bainbridge Street Baptist church was held last night. Messrs. George W. Hubbard and Alexander Moore, now at work at Benson, near Lynchburg, were on a visit to relatives and friends in Manchester. The City Central Democratic Club will meet at Odd Fellows' Hall next Friday night.

THE ELECTRIC LINE.
Cars to be Open for Passengers on Monday.

"When will you open your electric cars to the public?" a *Dispatch* reporter asked Mr. Bart, the superintendent of the Union Passenger-Railway Company yesterday.

"On Monday," he replied.
"At what hour?"
"At 9 o'clock in the morning."
"How many cars?"
"We will start with two, and in about a week we will put on ten more."
"How late will you run at night?"
"As late as travel justifies; probably until midnight."
"Will you run over the whole line?"
"No, we will only run as far west as Clay and Hancock streets. We will go over the whole eastern part of the line."
"How many miles will that be?"
"Slightly more than three and a half miles of distance or seven miles of track."
"The fare will be?"
"Five cents."

Mr. Bart complains very much of abuses put on the track by boys, who seriously interfere with travel.
It is hoped that the police will keep a lookout for these offenders. What right have boys to be trying to throw the cars off the track, especially as by so doing they may endanger life?
